Election/Restrictions

Newly submitted claims 22-24 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons:

The originally claimed invention disclosed a server comprising a first means for categorizing permission setting values, and a second means for managing the permission setting values hierarchically.

The newly claimed invention discloses a server comprising a controller as well as storage device which stores identification information and communication capability information of a user terminal, wherein the relations between the identification information the communication capability information determine whether the access permission setting value is changed from a permitted state to a not permitted state.

The original invention is unrelated from the newly claimed invention because the two inventions have different designs (original invention does not possess a controller or a storage means), different modes of operation and different effect (original invention does not include inspecting identification information and communication capability information to determine whether one is able to change the permission setting value of the other).

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for

prosecution on the merits. Accordingly, claims 22-24 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

The amendment filed on 11/05/2007 canceling all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because the new claims are distinct from the original claims for the reasons outlined above.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
